## DETAILED ACTION

### *Drawings*

1. The drawings are objected to because there are two (2) occurrences of the reference numeral 76a in Fig. 9A creating slight confusion. Also reference numeral 90 as shown in Fig. 9A is not in the specification.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Zecchini '677.

The patent to Zecchini '677 teaches all of the recited subject matter. As for Zecchini's device to be used as a paint applicator pad adapted to be rotated in use to apply a band of paint having a sharp trim edge portion and opposed feather edge portion of reduced thickness, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art

structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). Furthermore, claim 4 uses the phrases "adapted to" (lines 1 and 5) and it has been held that the recitation that an element is "adapted to" perform a function is not a positive limitation but only requires the ability to so perform. It does not constitute a limitation in any patentable sense. For example, as for the recitation that the pad has a center portion "adapted to" be received over a spindle on lines 6-7, such a recitation has not been positively recited and only requires the ability to so perform. In any case, Zecchini's teaches that the device is an applicator pad body portion for dispensing products in liquid, pasty or pulverulent form (col.1, lines 15-16) which could be paint. It is still believed that Zecchini's body portion 1 joins the backing portion 3 at an outermost edge of the backing portion 3 to define a "trim edge forming portion" of the applicator pad body.

#### ***Allowable Subject Matter***

4. Claims 6 and 7 are allowable.

Claims 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. Applicant's arguments filed November 4, 2003 have been fully considered but they are not persuasive.

It is believed that arguments have been addressed by the above art rejection to Zecchini '677.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Chin whose telephone number is (703) 308-1613. The examiner can normally be reached on Monday through Thursday and every other Friday.
